

Did you save the world?

Words & Music by Dave James Hendrikse

There's no time to waste in your life when you're young
Never played by the rules all we did was wrong

Now i'm older, Humming through the day's
Before the weight of the world
And the scars on my face

My mom's, obsessed 'bout school and my education,
You can grasp the reigns or the hand of faith,

Your youth has gone now, I've seen it die in vain
When you are getting old, your goals will never be the same
But let me tell you now

(Chorus;)

Hey, (Hey) did you save the world, when you were young
Hey, (Hey) did you save the world, when you were Strong

Your youth has gone now, I've seen it die in vain
When you are getting old, your goals will never be the same

Solo

(Chorus;)

Hey, (Hey) did you save the world, when you were young
Hey, (Hey) did you save the world, when you were Strong

Your youth has gone now, I've seen it die in vain
When you are getting old, your goals will never be the same
