

# I'm Okay

Words & Music by Dave James Hendrikse

I'm standing here, my hands in my pockets  
Thought that I hit bottom but I ain't there yet  
Yesterday no kind of difference  
Barely held together by a few old threads

Some say, they know it's not easy  
you turned to me, and said with a smile  
Some say, they know it's not easy  
And some might state, it'll take you a while

But I'm okay, yeah it's alright  
I have to leave you, but it isn't goodbye  
I'm okay, it's alright  
Just live it loud, like there's only one life Uhhmm.

Mister, this aint such a sad song  
Don't let me hear about you shedding a tear  
Just take your time, scream it out loud  
Can't find the word's, but i like to swear

Some say, they know it's not easy  
you turned to me, and said with a smile  
Some say, they know it's not easy  
And some might state, it'll take you a while

But, I'm okay, yeah it's alright  
I have to leave you, but it isn't goodbye  
I'm okay, it's alright  
Just live it loud, like there's only one life

It's safe to say, that i've paved my way  
It's safe to say, that we'll meet someday  
Yeah, Yeah, Yeah  
But, I'm.....

It's safe to say, that we'll meet someday  
It's safe to say, that we'll meet some day
