

Little bit of Blues

Words & Music by Dave James Hendrikse

All you need to get by when you're mad at the world
When you feel like you lose control
And your head's about to twirl
When you're heart breaks a little
Read the headlines and make sure you pay your dues
Cause It'll come out of nowhere,
it's called a little bit of blues

Life..... is giving you a rough time
You'll drive until you lose the road
If Seven days of shadows will follow you
Everywhere you'll go when you're heart breaks a little
Read the headlines and make sure you pay your dues
Cause It'll come out of nowhere, it's called
A little bit of blues

Life..... is giving you a rough time
You'll drive until you lose the road
If Seven days of shadows will follow you
Everywhere you'll go when you're heart breaks a little
Hit the headlines and make sure you pay your dues
It'll come out of nowhere, it's called a little bit of blues
