

# Stranger to the Rain

Words & Music by Dave James Hendrikse

I've been shattered, and i'm broken, i've been knocked out of the race  
I packed my hope, and borrowed time, with bruises on my face  
Collect my thoughts together, cause i have to hold my head  
.....Even .....when the world is closing in, I open up instead  
Fears that raged inside me, Nothing's gonna keep me down  
No demon or a devil who seems to be around

Sometimes it's good  
Sometimes there's pain  
But I am no stranger to the rain  
And I don't curse what I can't change  
As long as people know me  
People know my name

I know that I'll be contented, with all my memories  
You think you know the answers, but the questions never please

The pain i feel inside me, nothing's gonna keep me down  
Tormentor, evil spirit why are you around

Sometimes it's good  
Sometimes there's pain  
But I am no stranger to the rain  
And I don't curse what I can't change  
As long as people know me  
People know my name

In the end you won't admit it ,but we're all looking for a saint  
Oh, Mother, what the war did, do we ever see a change  
Somehow we coddle the infection, And no one is to blame  
The world is just the world  
But I'm no Stranger to the rain
